TB750P

MULTI SIZE RATCHET BENDER SET for soft copper

Redesigned for enhanced user experience and efficiency, the TB750P has a revolutionary all-in-one pipe clamp. This innovative design allows for effortless rotation and side switching, minimizing potential issues and damage to copper pipes caused by incorrect sizing. Additionally, the redesigned pipe bending heads feature color-coded markings for quick size identification and clear L/R markings for precise and consistent bending

- For soft copper and aluminum
- Application for 1/4", 3/8", 1/2", 5/8", 3/4"

- All-in-one support arm
- Color-coded former

- L and R mark
- 90-degree indicator

included

handle
Former : 1/4", 3/8", 1/2", 5/8", 3/4"
All-in-one support arm

* 7/8" former and reverse adapter is optional *

The handle has improvements to enhance its strength, durability, and ease of maintenance with increased thickness, ensuring exceptional resilience against wear and tear. Additionally, a convenient side slot has been incorporated for grease lubrication, eliminating the need for disassembly during maintenance. Furthermore, the handle features a rubberized grip that provides a secure and comfortable grip, preventing slippage during operation.

Optional

TS750P-F78 : 7/8" former
TS750P-RA : reverse adapter
